Astrological Forecast

By Carroll Righter

For Friday, Feb. 14

You have so many new and original ideas that you can express with ease and in a very articulate fashion that not a moment should be lost in placing them in effective execution with the modern methods that can put them in current mode. Make as many new allies with up-to-date persons as you possibly can, also.

ARIES (March 21 to April 19) Good gals have fine ideas to proffer so that you gain both your personal and business objectives. Listen carefully. Go out to the group gatherings that are good for you. Make new associates.

TAURUS (April 20 to May 20) Streamline all of your affair so that you have a more successful and happy life in the days ahead. One of prominence will now carry through with your ideas. Be careful not to get into any trouble.

GEMINI (May 21 to June 21) You can get together now with clever persons you want as associates. Step out of the dull routines you are in, have a good time, make your plans for travel, etc. Stop being so afraid of life.

MOON CHILDREN (June 22 to July 21) You have many obligations to take care of, so get busy and do just that. Listen to your intuition for good ideas. Show your mate that you are truly devoted. Stop being so lukewarm.

LEO (July 22 to Aug. 21) Whatever is vital to you can now be discussed with a partner who can assist you with whatever portion of your plan is not working out. Support associates more, too, and show you value them. Be cheerful

VIRGO (Aug. 22 to Sept. 22) Be of real service to other persons, gain their good will and show you are a thoughtful person. Improve your wardrobe so that you look up-to-date. Stop being so old-fashioned.

LIBRA (Sept. 23 to Oct. 22) This is a day for happiness and enjoyment, so call up your buddies and have a good time. Ride that hobby to your heart's desire. Don't forget to get your bills paid on time and to make that small repair at home.

SCORPIO (Oct. 23 to Nov. 21) Do something about making your home more charming and refreshingly clean so that it has a distinction all its own. Give your kin the ideas they need so they gain their cherished aims. Be smart.

SAGITTARIUS (Nov. 22 to Dec. 21) A good day to have further talks with allies in both personal and mercantile matters now on the fire. Get busy with letter writing also. Don't forget to make those telephone calls that are important.

CAPRICORN (Dec. 22 to Jan. 20) Get busy arranging all of your affairs more intelligently so that you operate more successfully in the future. You need to feel prosperous. Follow your intuition about placing one who takes care of your business matters.

AQUARIUS (Jan. 21 to Feb. 19) This is an ideal day to get together with associates in both business and personal life. Plan the future more wisely. Repay that social debt this evening. You will be appreciated and you'll receive more favors in the days ahead.

PISCES (Feb. 20 to March 20) You can get support, confidentially from one who has a thorough knowledge of his, and your, field of endeavor. Don't forget to help one who is unable to get out and needs your help badly. Be kind.

IF YOUR CHILD IS BORN TODAY . . . he or she will be one of those young people who is always more concerned with the future than what has gone before. Be sure to give an early start in good courses in history so that this New Era progeny of yours will benefit from the past and keep his or her feet on the ground. Then the chart becomes very successful.
